## OTHER

McEachen, J.C., "Data Communication Analysis Tools Suite (DCATS)." A new version of software protocol analysis tools consolidated at the request of a sponsor (NELO) and forwarded via DCS, 10 July 1998. These software tools allow near-real-time analysis of a large variety of data communication protocols in a user-friendly X-window based environment.

McEachen, J.C., "NSA Distance Learning Remote Computer Facility." Installed and configured a system for Distance Learning students at the NSA to run EC computer assignments (MATLAB and OPNET) from their remote workcenter desktop by leveraging off research facilities locally. Facility included a WWW site for dissemination of class assignments, instructions, lecture notes, and software. To date the facility had been successfully used by students in EC3510 and EC3850. This was done at no cost to the government.

McEachen, J.C., "IEEE ISCAS '98 WWW, E-mail, and Database Servers," (<http://iscas.nps.navy.mil/>). A suite of servers were installed and configured for use by the ISCAS organizing committee and participants. These services included mass e-mail announcements, e-mail for committee members, paper submission, review dissemination and collection, scheduling, database access, and program generation. Records on over 3000 individuals were maintained. Over 1200 papers were collected and reviewed. The WWW site was visited over 300,000 times as of Dec 97. This was done at no cost to the government.

McEachen, J.C., "EC3850 Course Materials WWW Server," (<http://web.nps.navy.mil/~mceachen/ec3850/>) A resource containing complete collection of lecture notes, computer assignments, homework solutions, test keys, and software help manuals used to facilitate the instruction of EC3850. This was done at no cost to the government.

McEachen, J.C., "EO3513 Course Materials WWW Server," (<http://web.nps.navy.mil/~mceachen/eo3513/>). A resource containing complete collection of lecture notes, computer assignments, MATLAB code, frequently asked questions, homework solutions, test keys, and software help manuals used to facilitate the instruction of EO3513. This was done at no cost to the government.
