Advanced Degrees

DOCTOR OF PHILOSOPHY

Raymond F. Bernstein, Jr. Civilian	A Pipelined Vector Processor and Memory Architecture for Cyclostationary Processing	3
Michael D. Foster Lieutenant Commander, United States Navy	California Sea Breeze Structure and its Relation to the Synoptic Scale	3
Osman Mohamed Ibrahim Colonel, Egyptian Air Force	A Model and Decision Support Mechanism for Software Requirements Engineering	4
Rolf Harold Langland Civilian, Naval Research Laboratory	An Interpretation of Extra Tropical Cyclogenesis Using Adjoint Methods	4
David Bryan Marco Civilian	Autonomous Control of Underwater Vehicles and Local Area Maneuvering	5
Richard J. Margason Civilian, National Aeronautics and Space Administration	Investigation of the Effect of Two-dimensional Cavities On Boundary Layers in an Adverse Pressure Gradient	5
Doan Nguyen Civilian, McClellan Air Force Base	An Architectural Model for Software Component Search	6
Emil T. Petruncio Lieutenant Commander, United States Navy	Observations and Modeling of the Internal Tide in a Submarine Canyon	6
David D. Pierce Lieutenant Commander, United States Navy	Range-dependent Passive Source Localization Using Data from the Barents Sea Tomography Experiment	7
Robert J. Voigt Commander, United States Navy	A Hierarchical Approach to Multicast in a Datagram Internetwork	7
Mahmoud A. Wahdan Colonel, Egyptian Army	New Motion Planning and Real-time Localization Methods Using Proximity for Autonomous Mobile Robots	8

AERONAUTICAL AND ASTRONAUTICAL ENGINEER

William Burke Harrington, Jr. Lieutenant Commander, United States Navy	Experimental Verification of an Optimal Linear Controller for a Flexible Structure	11

AERONAUTICAL AND ASTRONAUTICAL ENGINEER (cont.)

Wade E. Knudson, Lieutenant Commander, United States Navy — Orbital Perturbation Analysis of Earth-crossing Asteroids 11

Alan Douglas Scott, Commander, United States Navy — An Analysis of Spacecraft Dynamic Testing at the Vehicle Level 11

Grant B. Stephenson, Lieutenant, United States Navy — Evaluation of the Strain Energy Density Method of Notch Stress Concentration Calculations in the Plastic Range 12

Kirk E. Treanor, Lieutenant, United States Navy — Performance and Optimal Placement of Piezoceramic Actuators for Shape Control of a Cantilever Beam 12

Paul C. Woods, Lieutenant, United States Navy — Integral Hybrid-boost/Solid-fuel Ramjet Propulsion for Lightweight Tactical Missiles 13

ELECTRICAL ENGINEER

William M. Peyton, Jr., Lieutenant, United States Navy — Multiresolution Image Recognition Using the Wavelet Transform 17

MECHANICAL ENGINEER

Michael Alan Ballou, Lieutenant, United States Navy — The Effect of Thermomechanical Processing on the Tensile Properties and Microstructure of a 6061 Al-al2o3 Metal Matrix Composite 21

Michael S. Feyedelem, Lieutenant, United States Navy — Interaction of a Swirling Jet with a Free Surface 21

Jay A. Renken, Lieutenant Commander, United States Navy — Optimal Solution Selection for Sensitivity-based Finite Element Model Updating and Structural Damage Detection 21

John Vincent Tolliver, Lieutenant, United States Navy — Studies on Submarine Control for Periscope Depth Operations 22

Master of Science Degrees

AERONAUTICAL ENGINEERING

Juan Alvarez, Lieutenant, United States Navy — Helmet Mounted Display Symbology for Night Airborne Mine Countermeasures in the MH-5Ee Helicopter 25

AERONAUTICAL ENGINEERING
(cont.)

Bret S. Barton Captain, Canadian Armed Forces	Application of Multi-block CFD Techniques to a Missile Geometry	25
David O. Bauer Lieutenant Commander, United States Navy	A Historical Perspective of Aircrew Systems Effects on Aircraft Design	25
Gary G. Bishop Lieutenant, United States Navy	MACSAP 3.0 Survivability Assessment Software for Aircraft Conceptual Design	26
Andrew J. Booth Lieutenant, United States Navy	Final Modifications of NPS *Hummingbird* Remotely Piloted Helicopter in Preparation for Flight	26
Alain Carrier Captain, Canadian Armed Forces	Computational Investigation of Low Speed Flow Over Low Aspect Ratio Aircraft Configurations	27
Ramon A. Collazo, Jr., Lieutenant Commander, United States Navy	A Study on the Effects of Throttle Changes and Flare Decoys in an Engagement Between the F-14B/D Tomcat and the AA-11 Archer IR AAM	27
Robert E. Conway Lieutenant Commander, United States Navy	Power Plant and Drive Train Improvements of the NPS *Hummingbird* Remotely Piloted Helicopter	28
David M. Eccles Lieutenant, United States Navy	A Validation of the Joint Army/Navy Rotorcraft Analysis and Design Software by Comparison with H-34 and UH-60S Flight Test	28
Gary Lee Formet, Jr. Lieutenant, United States Navy	Conceptual Design Definition of a JSOW Unitary CATM	28
Anastasios E. Fritzelas Lieutenant, Hellenic Navy	A Water Tunnel Investigation of the Influence of Reynolds Number on the High-incidence Flow Over Double-delta Wings	29
Charles W. Gill Lieutenant, United States Navy	Neural Prediction of Missile Dynamics During Hardware-in-the-loop Captive-carry Experiments	29
Michael Hiro Guerrera Lieutenant, United States Navy	Laser Anemometry and Pressure Measurements in the Endwall Region of an Annular Turbine Cascade Utilizing a Pressurized Aerodynamic Window	30
John H. Harris III Lieutenant, United States Navy	Preliminary Vibration Survey of a Suspended Full-scale 0H-6A Helicopter from 0 to 45 Hz	30
Scott M. Herzog Lieutenant, United States Navy	Radiation Pattern Calculation for Missile Radomes in the Near Field of an Antenna	30

AERONAUTICAL ENGINEERING
(cont.)

Hideto Ito Lieutenant Junior Grade, Japanese Maritime Self Defense Force	A Study of the Measures of Effectiveness for the JMSDF Aegis Destroyer in a Littoral, Air Defense Environment	31
Andrew M. Kenny, Jr. Lieutenant, United States Navy	Low-speed Water Tunnel Flowfield Visualization Studies of the Hypersonic Lofty Waverider Configuration	31
Gary D. Klein Captain, United States Marine Corps	Linear Modeling of Tiltrotor Aircraft (in Helicopter and Airplane Modes) for Stability Analysis and Preliminary Design	31
Matthew Alan LeTourneau Lieutenant, United States Navy	Evaluation of the Boeing Pan Air Technologies Code (A502I) Through Prediction of Separation Forces on the GBU-24	32
Miguel A. Ortiz Lieutenant Commander, United States Navy	Numerical Simulation of the Flow Field About a Multi-Element Airfoil with Oscillating Flap	32
Louis P. Partida Lieutenant, United States Navy	Comparative Computational Analysis of Airfoil Sections for Use on Sailing Craft	32
Larry Alan Pugh Lieutenant Commander, United States Navy	Parametric (EWIR) Differences in HIL Missile Simulators: Impact on Electronic Attack Systems	33
Kenneth L. Reber Lieutenant, United States Navy	Burning Rates and Atomization Characteristics of Liquid Hydrocarbon Fuels	33
Dennis J. Reilly III Commander, United States Navy	Unitary Joint Standoff Captive Air Training Missile Avionics Design Through Operational Concepts and Functional Requirements Analysis	34
Michael T. Scarry Lieutenant, United States Navy	JSOW CATM Conceptual Weight and Airframe Design	34
David G. Schnorenberg Captain, United States Marine Corps	Investigation of the Effect of Reynolds Number on Laminar Separation Bubbles on Controlled-diffusion Compressor Blades in Cascade	34
Douglas L. Seivwright Lieutenant, United States Navy	Application of Pressure-sensitive Paint in Shock-boundary Layer Interaction Experiments	35
Robert N. Severinghaus Lieutenant, United States Navy	Application of Neural Networks to Periscope Discrimination	35
Ko Cheng Tan Lieutenant Commander, Republic of China Navy	Motion Planning and Dynamic Control of the NOMAD 200 Mobile Robot in a Laboratory Environment	35

AERONAUTICAL ENGINEERING
(cont.)

Vinh X. Tran Lieutenant, United States Navy	A Sensitivity Study of Numerical Solutions of the South China Sea Ocean Model to Various Grids Generated by Grid Generation Technique	36
David R. Wagner Commander, United States Navy	Unitary Joint Standoff Weapon Captive Air Training Missile Flight Simulation	36
James A. Zanino Lieutenant, United States Navy	Uniform System for the Rapid Prototyping and Testing of Controllers for Unmanned Aerial Vehicles	37

APPLIED MATHEMATICS

Robert Edward Beauchamp Lieutenant, United States Navy	Mathematical Modeling Using MAPLE	41
Thomas Carroll Lieutenant Commander, United States Navy	Edge Annihilation Sequences for Classes of Chordal Graphs	41
Shih-Hsiung Chen Lieutenant Commander, Taiwanese Navy	A Mathematical Model Analysis of Mine Countermeasures in a Harbor Channel	41
Linda M. Hunter Lieutenant Commander, United States Navy	The Use of Hénon Binary Sequences for Direct Sequence Spread Spectrum Code Generation	42
Robert E. Lazzell II Captain, United States Army	Mathematical Modeling and Analysis of Survivability and Morbidity Rates	42
Edwin E. Middlebrook Captain, United States Marine Corps	A Combat Simulation Analysis of Autonomous Legged Underwater Vehicles	43
Susan A. Rife Captain, United States Army	Matrix Algebra	43
Timothy R. Weber Lieutenant, United States Navy	An Analysis of Lemmings: A Swarming Approach to Mine Countermeasures in the VSW/SZ/BZ	44
R. Kent Wineinger Captain, United States Army	A Computer Simulation Analysis of Alternatives to the M728 Combat Engineer Vehicle (CEV)	44

APPLIED PHYSICS

Chad Francis Acey Lieutenant, United States Navy	Tropospheric Effects on UHF Radio Wave Propagation at Low Elevation Angles	47

APPLIED PHYSICS (cont.)

James E. Barrows Lieutenant, United States Navy	Parametric X-radiation from Mosaic Graphite: New Results and Reconciliation of Previous Experiments	47
Gary G. Bishop Lieutenant, United States Navy	Development of a Survivability and Lethality Assessment Center (SLAC) at NPS	47
Daniel A. Britton Lieutenant, United States Navy	Autonomous Friendly-target Identification After Weapons Release	48
John C. Gaffe Lieutenant, United States Navy and Carlos S. Guzman Lieutenant, United States Navy	Correlation of Experimental and Finite Element Modal Analysis of the Phalanx M61A1 Close-in Weapon System	48
Rodney Jay Gibson Lieutenant, United States Navy	An Experimental Comparison of a PIN Stack to a Conventional Stack in a Thermoacoustic Prime Mover	49
Michael S. Groen Captain, United States Marine Corps	Development and Validation of a Second Generation Visibility-based Model for Predicting Subjective and Objective Minimum Resolvable Temperature Difference Performance for Staring Thermal Imaging Systems	49
Carlos S. Guzman Lieutenant, United States Navy and John C. Gaffe Lieutenant, United States Navy	Correlation of Experimental and Finite Element Modal Analysis of the Phalanx M61A1 Close-in Weapon System	50
Peter H. Heisey Lieutenant, United States Navy	Split-field and Internally Filtered Imaging Polarimeter Development and Testing	50
Jeffrey D. Hicks Lieutenant, United States Navy	Design, Development, and Testing of the All-reflection Michelson Interferometer for Use in the Mid-ultraviolet Region	51
Chunsoo Kang Major, Republic of Korea Army	A Cost and Operational Effectiveness Analysis for Future Artillery System in Korea	51
Clélio Dinis Ferreira Leite Lieutenant, Portuguese Navy	Aerothermal Effects on the Infrared Seeker Staring Sensor Performance of High Supersonic Missiles	52
Fu-Chau Liu Captain, Republic of China Army	Evaluation of Effective MDTD/MRTD for FLIR from PREOS92 Measurement Data	52
Chih-Cheng Lo Lieutenant Colonel, Republic of China Air Force	The Vulnerability of an Airborne Early Warning (AEW) System Against Stand-off Noise Jamming (SOJ)	53
Luis E. Rodrigues Moita Lieutenant, Portuguese Navy	High-resolution Residue Antenna Architectures for Wideband Direction Finding	53

APPLIED PHYSICS (cont.)

Dimitrios P. Nikolaidis Lieutenant, Hellenic Navy	Detection of Mines Using Hyperspectral Analysis	53
Roy M. Porter Lieutenant, United States Navy	Simulation of Double Barrier Resonant Tunneling Diodes	54
Luis Ramos Lieutenant, United States Navy	Atmospheric Propagation Simulations and Boeing's High Average Power Free Electron Laser	54
Carlos Renato Campos Rangel Lieutenant Commander, Brazilian Navy	Optical System Evaluation	54
Mark S. Reed Lieutenant Commander, United States Navy	Measurements with Wire Mesh Stacks in Thermoacoustic Prime Movers	55
Panagiotis A. Sinanoglou Lieutenant, Hellenic Navy	Quantitative Evaluation of the Limitations of the Radiation Boundary Elements in the Finite Element Code ATILA	55
Paulo A. Soares Lieutenant, Portuguese Navy	Step Frequency Waveform Design and Analysis Using the Ambiguity Function	56
Joseph Donald Welter Lieutenant Commander, United States Navy	NPS High Resolution Synthetic Aperture Sonar	56

ASTRONAUTICAL ENGINEERING

Stuart M. Abrahamson Lieutenant, United States Navy	In-situ Measurement of Total Dose Radiation Effects on Parallel Plate MOS Capacitors Using the NPS Linear Accelerator	59
Cal Dave Astrin Lieutenant, United States Navy	Startup Control of the TOPAZ-II Space Nuclear Reactor	59
Martin Ronald Beaulieu Lieutenant, United States Navy	Launch Detection Satellite System Engineering Error Analysis	59
Charles Thomas Chase Lieutenant, United States Navy	Annealing of Defect Sites in Radiation Damaged Indium Phosphide Solar Cells through Laser Illumination	60
Claus M. Dohring Commander, German Navy	Experimental Analysis of the Wake of an Oscillating Airfoil	60
John M. Flynn Lieutenant, United States Navy	Optimization and Performance Analysis of Waverider Configured Interplanetary Space Vehicles	61
Donald Ray Harder Lieutenant, United States Navy	Convective Heat Transfer from a Cylinder in a Strong Acoustic Field	61

ASTRONAUTICAL ENGINEERING
(cont.)

Jeffrey D. Hicks Lieutenant, United States Navy	Design, Development and Testing of the All-reflection Michelson Interferometer for Use in the Mid-ultraviolet Region	62
James T. Jones Lieutenant, United States Navy	An Analysis of GPS Navigation Solutions for Shuttle Mission STS-69	62
Siwon Ray Lee Lieutenant, United States Navy	The Effects of Particulates on Supersonic Shear Layers and Afterburning in Fuel-rich Plumes	63
Michael S. Parish II Lieutenant, United States Navy	Optimality of Aero-assisted Orbital Plane Changes	63
Eric C. Ruttenberg Lieutenant, United States Navy	Burning Characteristics of Individual Aluminum/Aluminum Oxide Particles	63
Dan Alexander Starling, Jr. Lieutenant, United States Navy	Propellant Feed Control for Ion Engines	64
Mark L. Stevens Lieutenant, United States Navy	Flow Visualization and Optimization of Side-inlet-dump Liquid-Fuel Ramjet Combustors	64
Andrew W. Swenson Lieutenant, United States Navy	Liquid Hydrocarbon Fuel Composition Effects on Plume Characteristics	64
Nicole Lynn Tait Lieutenant, United States Naval Reserve	Recovery Factors in Zero-mean Internal Oscillatory Flows	65
Philip H. Turner Lieutenant, United States Navy	Particulate Sizing in Gas Turbine Exhaust Using a Laser Extinction Technique	65
Kevin M. Wilson Lieutenant Commander, United States Navy	Vulnerability of IntelSAT/VSAT Systems	66
Kevin D. Ziomek Lieutenant, United States Navy	The Application of Videogrammetry in the Structural Testing of Spacecraft	66

COMPUTER SCIENCE

David Stuart Angrisani Lieutenant Commander, United States Navy and George Steven Whitbeck Major, United States Marine Corps	Software System Requirements for the Army Tactical Missile System (ATACMS) End-to-end System Using the Computer-aided Prototyping System (caps) Multi-file Approach	69

COMPUTER SCIENCE (cont.)

Carlos Martin Barbosa Lieutenant, United States Navy and Aykut Kutlusan Lieutenant Junior Grade, Turkish Navy	The Design and Implementation of a Compiler for the Object-oriented Data Manipulation Language	69
Lloyd J. Biggs Captain, United States Marine Corps	Headphone-delivered Three Dimensional Sound in NPSNET	70
Jaime Borrego Lieutenant, United States Navy and Frank Free Major, United States Marine Corps	Porting High Quality Graphics Simulations to a Low-cost Computer Architecture	70
Michael L. Burns Lieutenant, United States Navy	Merging Virtual and Real Execution Level Control Software for the Phoenix Autonomous Underwater Vehicle	71
Hannelore Campbell Lieutenant, United States Navy and Daniel L. Currie III Lieutenant, United States Navy	Implementation and Efficiency of Steganographic Techniques in Bitmapped Images and Embedded Data Survivability Against Lossy Compression Schemes	71
Michael Scott Campbell Lieutenant, United States Navy	Real-time Sonar Classification for Autonomous Underwater Vehicles	72
Robert E. Campbell Lieutenant, United States Navy	Geolocation Workbench	72
Mark E. Cantrell Major, United States Marine Corps	Diphone-based Speech Recognition Using Neural Networks	73
Kevin M. Coyne Lieutenant, United States Navy	Design and Analysis of an Object-oriented Database of Electronic Warfare Data	73
James C. Cummiskey Major, United States Marine Corps	Internetworking: The Interoperability of Commercial Mobile Computers with the USMC Digital Automated Communications Terminal (DACT)	74
Daniel L. Currie III Lieutenant, United States Navy and Hannelore Campbell Lieutenant, United States Navy	Implementation and Efficiency of Steganographic Techniques in Bitmapped Images and Embedded Data Survivability Against Lossy Compression Schemes	74
Susan C. Borden Davis Lieutenant Commander, United States Navy	NPSNET Vehicle Database: An Object-oriented Database in a Real-time Vehicle Simulation	75

COMPUTER SCIENCE (cont.)

Duane Thomas Davis Lieutenant, United States Navy	Precision Control and Maneuvering of the Phoenix Autonomous Underwater Vehicle (AUV) for Entering a Recovery Tube	75
Edward Michael DeVilliers Captain, United States Marine Corps	Implementing Voice Recognition and Natural Language Processing in the NPSNET Networked Virtual Environment	75
Barry A. Diehl Captain, United States Army and Timothy J. Werre Lieutenant Commander, United States Navy	The Activation and Testing of the Network CODASYL-DML Interface of the M²DBMS Using the EWIR Database	76
Evan B. Edwards Lieutenant Commander, United States Navy	Internetworking: Automated Local and Global Network Monitoring	77
Renell D. Edwards Lieutenant, United States Navy and Donna N. Scrivener Lieutenant Commander, United States Navy	Reactivation of the Relational Interface in M²DBMS and Implementation of the EWIR Database	77
Ridvan Erdogan Lieutenant Junior Grade, Turkish Navy	Internetworking: Implementation of Multicasting and MBONE Over Frame Relay Networks	78
Frank Free Major, United States Marine Corps and Jaime Borrego Lieutenant, United States Navy	Porting High Quality Graphics Simulations to a Low-cost Computer Architecture	78
William H. Frey III Lieutenant, United States Navy	Application of Inertial Sensors and Flux-gate Magnetometer to Real-time Human Body Motion Capture	79
John D. Fulp Captain, United States Marine Corps	A National Imagery Systems Security Policy	79
Mark J. Gonzalez Commander, United States Navy and Mitch R Hayes Lieutenant, United States Navy	The Development of a Relational Database to Support the Flight Hour Program of Commander, Naval Air Forces Pacific	80
Scott Robert Grosenheider Captain, United States Marine Corps	Enhancements for the Caps Prototyping System Description Language Syntax-directed Editor	80

COMPUTER SCIENCE (cont.)

Mitch R Hayes Lieutenant, United States Navy and Mark J. Gonzalez Commander, United States Navy	The Development of a Relational Database to Support the Flight Hour Program of Commander, Naval Air Forces Pacific	81
Ruey-Wen Hong Lieutenant Commander, Taiwan Republic of China Navy	User Interface and Database Design for Software Database of the Computer-aided Prototyping System (CAPS)	81
Dennis M. Irwin Lieutenant, United States Navy	Re-engineering of the Computer-aided Prototyping System for Portability	82
Brian K. Jones Lieutenant Commander, United States Navy	Geolocation Workbench Development System	82
Aykut Kutlusan Lieutenant Junior Grade, Turkish Navy and Carlos Martin Barbosa Lieutenant, United States Navy	The Design and Implementation of a Compiler for the Object-oriented Data Manipulation Language	83
J. J. Lee Lieutenant Colonel, Taiwan Army and Thomas D. McKenna Lieutenant Commander, United States Navy	The Object-oriented Database and Processing of Electronic Warfare Data	83
Bradley J. Leonhardt Lieutenant, United States Navy	Mission Planning and Mission Control Software for the Phoenix Autonomous Underwater Vehicle (AUV): Implementation and Experimental Study	84
Robert Lawrence Marlett Lieutenant Commander, United States Navy	Controlled Access Protection in the Telescript™ Programming Language	84
David Wayne McClarin Lieutenant, United States Navy	Discrete Asynchronous Kalman Filtering of Navigation Data for the Phoenix Autonomous Underwater Vehicle	85
Thomas D. McKenna Lieutenant Commander, United States Navy and J. J. Lee Lieutenant Colonel, Taiwan Army	The Object-oriented Database and Processing of Electronic Warfare Data	85
Matthew Guy Moore Lieutenant, United States Navy	Prototype Supervisory and Summary Displays for the Advanced Tomahawk Weapon Control System (ATWCS)	86

COMPUTER SCIENCE (cont.)

Tuan Anh Nguyen Lieutenant, United States Naval Reserve	Populating the Software Database	86
Tufan Oruk Lieutenant Junior Grade, Turkish Navy	Simulation and Analysis of a Wireless Mac Protocol: MACAW	87
Mustafa Özgen Lieutenant Junior Grade, Turkish Navy	A Type Inference Algorithm and Transition Semantics for Polymorphic C	87
Athanassios Papadatos Lieutenant, Hellenic Navy	Research on Motion Planning of Autonomous Mobile Robot	88
Leonard V. Remias Lieutenant, United States Navy	A Real-time Image Understanding System for an Autonomous Robot	88
Donna N. Scrivener Lieutenant Commander, United States Navy and Renell D. Edwards Lieutenant, United States Navy	Reactivation of the Relational Interface in M²DBMS and Implementation of the EWIR Database	89
Erhan Senocak Lieutenant Junior Grade, Turkish Navy	Design and Implementation of Real-time Monitor for the Object-oriented Interface	89
Veliddin Eran Sezgin Lieutenant Junior Grade, Turkish Navy	File Transfer with SNR High-speed Transport Protocol	90
Ruediger Steven Lieutenant Commander, German Navy	Simulation-based Validation of Navigation Filter Software for a Shallow Water AUV Navigation System (SANS)	90
Bryan Christopher Stewart Lieutenant, United States Navy	Mounting Human Entities to Control and Interact with Networked Ship Entities in a Virtual Environment	91
Steven W. Stone Captain, United States Army	A Rapidly Reconfigurable, Application Layer, Virtual Environment Network Protocol	91
Tevfik Murat Tamer Lieutenant Junior Grade, Turkish Navy	Internetworking: Multicast and ATM Network Prerequisites for Distance Learning	92
Randy G. Walker Captain, United States Marine Corps	Design and Evaluation of an Integrated, Self-contained GPS/ INS Shallow-water AUV Navigation System (SANS)	92
Timothy J. Werre Lieutenant Commander, United States Navy and Barry A. Diehl Captain, United States Army	The Activation and Testing of the Network CODASYL-DML Interface of the M²DBMS Using the EWIR Database	93

COMPUTER SCIENCE (cont.)

George Steven Whitbeck Major, United States Marine Corps and David Stuart Angrisani Lieutenant Commander, United States Navy	Software System Requirements for the Army Tactical Missile System (ATACMS) End-to-end System Using the Computer Aided Prototyping System(CAPS) Multi-file Approach	93
Danny A. Wiley Captain, United States Army	A Methodology for Evaluating the Capability of the Bradley 25mm Cannon to Engage and Defeat Pioneer Class Unmanned Aerial Vehicles	94
David Raiman Wootten Lieutenant, United States Naval Reserve	A Graphic User Interface for Rapid Integration of Steganography Software	94

ELECTRICAL ENGINEERING

Abdulla Mufarrah Abdulla Captain, Bahrain Army	Identification of Push-to-Talk Transmitters Using Wavelets and Spectral Correlation	97
Stuart M. Abrahamson Lieutenant, United States Navy	In-Situ Measurement of Total Dose Radiation Effects on Parallel Plate MOS Capacitors Using the NPS Linear Accelerator	97
Okay Albayrak Lieutenant Junior Grade, Turkish Navy	Line and Circle Formation of Distributed Autonomous Mobile Robots with Limited Sensor Range	98
Gokhan Alptekin Lieutenant Junior Grade, Turkish Navy	Geometric Formation with Uniform Distribution and Movement in Formation of Distributed Mobile Robots	98
F. Nadir Altmisdort Lieutenant Junior Grade, Turkish Navy	Development of a New Prediction Algorithm and a Simulator for the Predictive Read Cache (PRC)	98
Duane E. Amsler, Jr. Captain, United States Army	Design of a Universal Test Platform for Radiation Testing of Digital Components	99
Peter Allen Andreasen Commander, United States Navy	Gallium Arsenide Dram Memory Cell Design and Evaluation of Test Methods	99
Lynn L. Boyer IV Lieutenant, United States Navy	Power Recovery of Radiation Damaged MOCVD Grown Indium Phosphide on Silicon Solar Cells through Argon-Ion Laser Annealing	100
Michael Scott Campbell Lieutenant, United States Navy	Real-Time Sonar Classification for Autonomous Underwater Vehicles	100
Emmanouil Christofis Lieutenant, Hellenic Navy	Performance Analysis of FFH/BPSK Receivers with Convolutional Coding and Soft Decision Viterbi Decoding Over Channels with Partial-band Noise Interference	101

ELECTRICAL ENGINEERING (cont.)

Timothy M. Ciocco Lieutenant, United States Navy	A Comparison Study of CDMA versus TDMA/FDMA Leo Satellite Systems	101
Martin Cloutier Captain, Canadian Armed Forces	Optimal Digital Detection of Acoustic Signals in Colored Noise	101
Michael V. Cooperwood Lieutenant, United States Navy	Analysis and Performance Comparison of Adaptive Differential Pulse Code Modulation Data Compression Systems	102
Evandro L. da Costa Lieutenant Commander, Brazilian Navy	Detection and Identification of Cyclostationary Signals	102
Jerry Bennett Dismuke Lieutenant, United States Navy	Formal Specification, Verification, and Analysis of the Reliable Multicast Transport Protocol	103
Tyson James Gallander Lieutenant, United States Navy	Design Tradeoffs in Radiation Hardened ASICs for Space Applications	103
Dilip B. Ghate Lieutenant, United States Navy	Implementation of a Digital Communication System Using QPSK Modulation	103
Ian Neil Glenn Major, Canadian Armed Forces	Multilevel Data Association for the Vessel Traffic Services System and the Joint Maritime Command Information System	104
Curtis J. Goodnight Lieutenant, United States Navy	Design and Evaluation of Mine and UXO Detectors to Autonomous Mobile Robots	104
Michael S. Groen Captain, United States Marine Corps	Development and Validation of a Second Generation Visibility-Based Model for Predicting Subjective and Objective Minimum Resolvable Temperature Difference Performance for Staring Thermal Imaging Systems	104
Diane K. Gronewold Lieutenant Commander, United States Navy	Communication Critical Path for GPS-Assisted TDOA Geolocation System	105
William Burke Harrington, Jr. Lieutenant Commander, United States Navy	Optimal Linear Quadratic Gaussian Controller Design for a Flexible-Spacecraft Simulator	105
Troy L. Hart Lieutenant Commander, United States Navy	Analysis and Design of CMOS Voltage-Folding Circuits and Their use in High Speed ADCS	106
James W. Hodge, Jr. Captain, United States Marine Corps	A Comparison Between Power Line Noise Level Field Measurements and Man-made Radio Noise Prediction Curves in the High Frequency Radio Band	106
Hugh Joseph Huck III Lieutenant, United States Navy	Speed, Power Consumption, and Impedance in Gallium Arsenide IC Interconnection Circuits	107

ELECTRICAL ENGINEERING (cont.)

Hsien-Ming Hsu Lieutenant Commander, Republic of China, Taiwan Navy	Radiated Power Control for Narrow-Band Digital Links	107
Douglas A Jenik Lieutenant, United States Navy	Time-Difference-of-Arrival Estimation Using Cyclostationary Signal Processing Techniques (Part I/Part II)	107
Soonho Jeong Captain, Republic of Korea. Army	Wideband Signal Analysis and Synthesis Applied to Electromagnetic Transient Waveforms	108
Michael C. Jones Lieutenant, United States Navy	Automatic Synthetic Sonar Transient Generation	108
Mücahit Karasu Lieutenant Junior Grade, Turkish Navy	AR Parameter Estimation using TMS320C30 Digital Signal Processor Chip	108
Dimitrios Kavoulakos Lieutenant Junior Grade. Hellenic Navy	The Modification of a Surface Shipborn Radar (DECCA 1226) in Order to Meet Military Standards (High Resolution) without Changing Its Electronic Signature	109
Stanley Ollie Keeve, Jr. Lieutenant, United States Navy	Tactical Naval Applications of the "Improved Many-on-Many" Radar Simulation Program	109
Gary D. Klein Captain, United States Marine Corps	Linear Modeling of Tiltrotor Aircraft (In Helicopter and Airplane Modes) for Stability Analysis and Preliminary Design	110
Theodore S. Kline Captain, United States Marine Corps	Broadband HF and VHF Antenna Design with Terrain Modeling Use of the Symmetrical Number System in Resolving Undersampling Aliases	110
Richard E. Leino Captain, United States Marine Corps	Use of the Symmetrical Number System in Resolving Undersampling Aliases	110
Yu-Bin Ma Major, Republic of China Army	Velocity Compensation in Stepped Frequency Radar	111
Joao Roberto Vasconcellos Martins Lieutenant Commander, Brazilian Navy	Speech Compression Using Cosine Packet Decomposition	111
Scot C. Miller Major, United States Army	Simulation of an Optical Correlator Configured As an Imaging System Using Liquid Crystal Television Spatial Light Modulators	111
Christopher S. Mooney Lieutenant, United States Navy	Design of a Satellite-based Microelectronic Radiation Testing Experiment	112
Jeffrey L. Nowlin Lieutenant, United States Navy	Planarity in ROMDD's of Multiple-valued Symmetric Functions	112

ELECTRICAL ENGINEERING (cont.)

Yalcin Payal Lieutenant Junior Grade, Turkish Navy	Identification of Push-to-Talk Transmitters Using Wavelets	112
Stephen Christopher Pearson Lieutenant, United States Navy	The Probability of Detection of Certain Threat Emitters Using Multiple Collection Sources	113
William M. Peyton, Jr. Lieutenant, United States Navy	Multiresolution Image Recognition Using the Wavelet Transform	113
Alan P. Pietruszewski Lieutenant Commander, United States Navy	A Programmable Offset Differential ECL Four Channel Clock Generator for Applications in High Resolution Digital Antennas	113
Christopher A. Poor Lieutenant, United States Navy	Simulink Modelling of a Marine Autopilot for TSSE Ship Designs	114
Joseph R. Robert, Jr. Lieutenant, United States Navy	The Design of a Predictive Read Cache	114
Emmanouil Sakiotis Lieutenant, Hellenic Navy	Recent Advances in the Technology of Microwave Devices Employed in Radar Systems, and the Impact of these Technologies on Potential Improvements to Radar System Performance	115
Benjamin D. Salerno Lieutenant, United States Navy	Controller Design, Analysis, and Prototype for Ship Service Converter Module	115
Jeffrey Scott Scheidt Lieutenant, United States Navy	Enhanced Visualization Methods for Channel Effects in the Radio Frequency Mission Planner	116
Kellog Cole Sharp Lieutenant, United States Navy	Improvements in the Threat Simulator Model Development Environment	116
Patrick W. Smith Lieutenant, United States Navy	Performance Analysis of Milstar Low Data Rate Downlink	116
Brian S. Tait Lieutenant, United States Navy	Analysis of Hardware Implementation and Speed Control of a Slip Energy Recovery System	117
Michael D. Theodoss Captain, United States Army	Performance of FFH/BFSK Systems with Convolutional Coding and Soft Decision Viterbi Decoding over Rician Fading Channels with Partial-Band Noise Interference	117
David Mitchell Thomas Captain, United States Army	Performance of a Communications Systemwhen Subjected to the PGS 402 Ultra-wide-band Impulse Generator	118
Jerry D. Tyner Lieutenant, United States Navy	Analysis, Simulation and Design of the Mapham Converter	118

ELECTRICAL ENGINEERING (cont.)

Konstantinos Vlachos Hellenic Navy	A Wide Angle Split-Step Parabolic Equation Model for Propagation Predictions Over Terrain	118
Randy G. Walker Captain, United States Marine Corps	Design and Evaluation of an Integrated, Self-Contained GPS/INS Shallow-Water AUV Navigation System (SANS)	119
Joseph Donald Welter Lieutenant Commander, United States Navy	NPS High Resolution Synthetic Aperture Sonar	119
Joel Yourkowsky Major, United States Marine Corps	Computer Simulation of an Unmanned Aerial Vehicle Electric Propulsion System	120
Eng-Kiong Yeu Defense Technology Group, Singapore	Error Probabilities of Spread Spectrum Systems in an Ultra Wideband Source (UWBS) Interference	120

ENGINEERING ACOUSTICS

Anthony J. Anglin Lieutenant, United States Navy	An Investigation of Surface Waves Using a Two-axis Source-receiver Combination	123
Martin Cloutier Captain, Canadian Armed Forces	Optimal Digital Detection of Acoustic Signals in Colored Noise	123
Evandro L. da Costa Lieutenant Commander, Brazilian Navy	Detection and Identification of Cyclostationary Signals	123
Erick Brian Cushman Lieutenant, United States Navy	Bottom Backscatter Mapping: The Effect of Secondary Multipath Interactions	124
Michael R. Dargel Lieutenant, United States Navy	The Influence of Physical System Parameters on the Performance of Adaptive Filters for System Identification of Mechanical Systems	124
Enrique Garcia Lieutenant, United States Navy	Anti-helicopter Mine Systems	124
Ching-Kai Meng Lieutenant Commander, Republic of China Navy	Transient Phenomena in Thermoacoustic Prime Movers	125
James E. Schmidt Lieutenant Commander, United States Navy	Vibration Measurements on the Phalanx Electro-optical Stabilization System	125
Mei-Chun Yuan Lieutenant Commander, Republic of China Navy	Effects of Shallow Water Bottom Interface Roughness and Volume Fluctuations on Broadband Pulse Resolution	125

ENGINEERING SCIENCE

Jia-Yuarn Guo Major, Republic of China Army	Simplified Micromechanical Models for Analysis of Interface Debonding in a Fibrous Composite	129
Gregory Ian Jones Lieutenant, United States Navy	Design and Implementation of a Geolocation Software Workbench	129
Kern D. Lunde Lieutenant Commander, United States Navy	The Feasibility of Using Tethered Satellites for Geolocation	129

INFORMATION TECHNOLOGY MANAGEMENT

Mochamad Arum Commander, Republic of Indonesia	Implementation Consideration for Windows NT Integrated Network for System Management Computer Laboratories	133
F. Michael Asmus Captain, United States Marine Corps	The Characteristics of Successful Marine Corps Recruiting Stations: Leadership and Information Sharing	133
Lawrence Jay Brachfeld Lieutenant, United States Navy	Implementing a LAN that Interfaces with the DMS and Uses MISSI	133
Albert Anthony Brady Lieutenant, United States Navy	Evaluating Knowledge Based Software Development Tools	134
David G. Brownlee Lieutenant, United States Navy	Pricing Information Services in Electronic Markets: Case Study of Decisionnet	134
Robert A. Cameron Lieutenant, United States Navy and Kenneth G. Carrick Captain United States Army	Reengineering DoD through Enterprise-wide Migration to Open Systems	135
Kenneth G. Carrick Captain United States Army and Robert A. Cameron Lieutenant, United States Navy	Reengineering DoD through Enterprise-wide Migration to Open Systems	135
John T. Caller Lieutenant Commander, United States Naval Reserve	Infrastructure Considerations for World Wide Web Servers	136
Onder Celebi Lieutenant Junior Grade, Turkish Navy	Development and Implementation of an Information System for the Naval Postgraduate School International Programs Office	136

INFORMATION TECHNOLOGY MANAGEMENT (cont.)

Michael D. Chalfant, Jr. Lieutenant, United States Navy and Kevin M. Coats Lieutenant, United States Navy	Design and Implementation of a World Wide Web Conference Information System	137
Scott H. Chaney Lieutenant, United States Navy and Roy J. Geberth Lieutenant Commander, United States Navy	The Sociotechnical Dynamics of a Travel Management Reengineering Project	137
Carlos M. Chavez Lieutenant Commander, United States Navy	AN FDDI-based Solution for the Systems Management Department Computer Laboratory Network	138
Kevin M. Coats Lieutenant, United States Navy and Michael D. Chalfant, Jr. Lieutenant, United States Navy	Design and Implementation of a World Wide Web Conference Information System	138
Robert P. Cooke, Jr. Lieutenant, United States Navy	Technology Transfer of the Computer-aided Prototyping System (CAPS)	139
Eugene D. Costello Lieutenant, United States Navy and Gary A. Gotham Lieutenant, United States Navy	Overhead Non-imaging Infra-red (ONIR) Sensor-to-shooter Connectivity Options for Theater-wide Ballistic Missile Defense and Pre-apogee Intercept from the Sea	139
Dale Michael Courtney Lieutenant Commander, United States Navy	Internetworking: NPS ATM LAN	140
Ronald M. Dennis Lieutenant, United States Navy	Internetworking: Integrating IP/ATM LAN/WAN Security	140
Steven H. Earley Lieutenant, United States Navy	Decisionnet: A Database Approach	141
David Kenneth Flick Sr. Lieutenant, United States Navy and Charles Royce Gillum Jr. Lieutenant, United States Navy	Electronic Commerce: An Analysis of Financial Transaction Methods and Associated Security	141

INFORMATION TECHNOLOGY MANAGEMENT (cont.)

Christopher J. Gaucher Lieutenant, United States Navy and Nina R. Kenmore Lieutenant, United States Navy	Information Systems Security Requirements for the Engineering 2000 Initiative of the Tomahawk Engineering Community	142
