

TABLE OF CONTENTS

ADVANCED DEGREES

DOCTOR OF PHILOSOPHY

Swell Across the Continental Shelf.....	3
Multi-Block Parallel Navier-Stokes Simulation of Unsteady Wind Tunnel and Ground Interference Effects	3
Performance of Serially Concatenated Convolutional Codes with Binary Modulation in AWGN and Noise Jamming over Rayleigh Fading Channels.....	4
Experimental Investigation of Low Speed Flow Over Flapping Airfoils and Airfoil Combinations	4
Simulated Annual and Seasonal Arctic Ocean and Sea-Ice Variability from a High Resolution, Coupled Ice-Ocean Model	5
Nearshore Wave and Current Dynamics	5
Optimization of Distributed, Object-Oriented Architectures	6
A Computationally Efficient Algorithm for Disturbance Cancellation to Meet the Requirements for Optical Payloads in Satellites	6
Applications of Large Amplitude Broadband Acoustic Noise to Acoustophoresis	7

AERONAUTICAL AND ASTRONAUTICAL ENGINEER

Design and Evaluation of a Digital Flight Control System for the Frog Unmanned Aerial Vehicle.....	9
----------------------------------------------------------------------------------------------------	---

ELECTRICAL ENGINEER

Performance Analysis of Pilot-Aided Forward CDMA Cellular Channel.....	11
A 3D Parabolic Equation (PE) Based Technique for Predicting Propagation Path Loss in an Urban Area	11
Design and Implementation of a High-Power Resonant DC-DC Converter Module for a Reduced-Scale Prototype Integrated Power System.....	12

MECHANICAL ENGINEER

An Experimental Investigation of the Bow Wave on <i>USS Cole</i> (DDG-67)	13
Validation of Low Observable Stack Eductor Design for Gas Turbine Exhaust Systems	13

MASTER OF SCIENCE

AERONAUTICAL ENGINEERING

Three-Component LDV Measurements of Corner Vortices Over Second-Generation, Controlled-Diffusion, Compressor Blades in Cascade	17
Hi-Fidelity Simulation and Prediction of Helicopter Single Point External Load Stabilization.....	17
Supersonic Flow Field Visualization Studies of the $M_\infty=6$	18
Hardware Integration of Parachute Guidance, Navigation, and Control for the Affordable Guided Airdrop System (AGAS)	18
Preliminary Design Code for an Axial Stage Compressor	18

TABLE OF CONTENTS

APPLIED MATHEMATICS

Exploitation of National Sensors for Terrain Categorization (U)	21
-----------------------------------------------------------------------	----

APPLIED PHYSICS

Experimental Use of the Lawrence Livermore Developed Micro-Power Short Pulse Radar to Extract Low Amplitude Modulation Signals Corresponding to Human Heart Rates	23
-------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----

ASTRONAUTICAL ENGINEERING

Conceptual Design Tools for the NPS Spacecraft Design Center	25
--------------------------------------------------------------------	----

COMPUTER SCIENCE

Agent-Based Simulation of a Marine Infantry Squad in an Urban Environment	27
Software Testing Tools: Metrics for Measurement of Effectiveness on Procedural and Object-Oriented Source Code.....	27
Web-Based Testing Tools for Electrical Engineering Courses	28
Vulnerability Assessment of Microsoft Exchange 2000 Server Software.....	29
Web-Enabling an Early Warning and Tracking System for Network Vulnerabilities.....	29
Design and Implementation of Online Communities	30
Terminator 2: Developing a Real Time Thermodynamic Based Patternless Intrusion Detection System	30
Enhancing Network Communication in NPSNET-V Virtual Environments Using XML-Described Dynamic Behavior (DBP) Protocols	31
Software Re-Engineering of the Human Factors Analysis and Classification System – (Maintenance Extension) Using Object Oriented Methods in a Microsoft Environment.....	31
Electronic Maneuvering Board and Dead Reckoning Tracer Decision Aid for the Officer of the Deck	32
Integrating a Trusted Computing Base Extension Server and Secure Session Server Into the Linux Operating System	31
The Design and Development of a Web-Interface for the Software Engineering Automation System.....	33
A Study of the Requirements for a Heads-Up Display for Use in Motor Transportation in the United States Marine Corps.....	33
Using Network Management Systems to Detect Distributed Denial of Service Attacks	34
A Pattern-Matching Approach for Automated Scenario-Driven Testing of Structured Computational Policy.....	34
Advanced Quality of Service Management for Next Generation Internet.....	35
Web-Based Training for the Hellenic Navy	35
Principles for Web-Based Instruction.....	35
Web Database Development	36
Implementation of a Multi-Agent Simulation for the NPSNET-V Virtual Environment Research Project	36
Fault Tolerance in the Server and Agent Based Network Management (SAAM) System	36

ELECTRICAL ENGINEERING

Ultra-Wideband Antenna Design for the USQ-146 Installation on the H-60 Helicopter	39
Design, Implementation, and Testing of a High Performance Summation Adder for Radar Image Synthesis.....	39
Web-Based Testing Tools for Electrical Engineering Courses	40
Exploitation of Transmission Control Protocol Error Handling as a Means of Covert Communications	40
Implementing the Cross Ambiguity Function and Generating Geometry-Specific Signals	40
An Invariant Display Strategy for Hyperspectral Imagery	41
Ultra-Wideband, Combat Wearable Integrated (COMWIN) Antenna Design for the Joint Tactical Radio System (JTRS).....	41
The Design, Simulation, and Fabrication of a BiCMOS VLSI Digitally Programmable Filter	42
Capabilities and Limitations of Orthogonal Frequency-Division Multiplexing in Wireless Applications.....	42

TABLE OF CONTENTS

Analysis and Evaluation of the Electromagnetic Compatibility of COTS Wireless LAN Components Onboard Submarines	42
Modeling and Performance Analysis of Cellular CDMA Channel with Rake Receiver	43

ENGINEERING SCIENCE

Simulation of an Orthogonal Frequency Division Multiplexing Based Underwater Communication System Using a Physics Based Model for the Underwater Acoustic Sound Channel	45
-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----

INFORMATION SYSTEMS AND OPERATIONS

A Wireless Local Area Network Command and Control System for Explosive Ordnance Disposal Incident Response	47
---------------------------------------------------------------------------------------------------------------------	----

INFORMATION TECHNOLOGY MANAGEMENT

Information Systems Strategic Planning for Kosovo Peacekeeping Force.....	49
Development of the Marine Information Portal Through Information Management on the World Wide Web.....	49
Web-Based Information Management System for the Investigation, Reporting, and Analysis of Human Error in Naval Aviation Maintenance.....	50
Integration of the USMC AAV(C) C4I System Architecture and Staff Training Requirements.....	50
Survey of Emerging Wireless/PCS Technology and the Implications on Future Military Tactical Communications.....	51
Comparison of Department of Defense Information Technology Acquisition Processes: A Case Study.....	51
Business Process Redesign in Marine Corps Recruiting with Visual Modeling and Simulation	51
Recommending Policy and Operating Procedures for Stealthy Intrusion Detection Networks (SIDN) in the Department of the Navy.....	52
A Naval Special Warfare Concept of Operations for the Mobile Exploration System (MEX) in a Network Centric Environment.....	52
Feasibility of the Tactical UAV as a Combat Identification Tool	53
Design of Mobile User Objective System (MUOS) Helmet Mounted UHF Antenna.....	53
Wireless Technology Via Satellite Communications for Peacekeeping Operations	53
Integration of Personal Digital Assistant (PDA) Devices into the Military Healthcare Clinic Environment	54
The Use of Knowledge-Based Decision Support Systems in Re-Engineering Selected Processes in the U.S. Marine Corps.....	54
A Data Warehousing and OLAP Application for the Naval Reserve Force (CNRF) Assessment Process.....	55
Intrusion Detection Systems Requirements Analysis: An Evaluation of the Marine Corps' Use of COTS IDS	55
Reorganization of the Marine Air Command and Control System to Meet 21 st Century Doctrine and Technology	56
Information Management System for Electronic Voting in Support of the Schieffelin Award for Excellence in Teaching.....	56
Collaborative Planning Solutions: Using USMC Standard Collaboration Tools to Assist with Mission Planning and Execution	57
Implementing the Naval Postgraduate School's Security Policy Using Windows 2000	57
Lessons from Enterprise System Implementations Applied to the Marine Corps Total Force Administration System	57
Using Network Management Systems to Detect Distributed Denial of Service Attacks	58
Information Management System Development for the Investigation, Reporting, and Analysis of Human Error in Naval Aviation Maintenance.....	58
Scenario Authoring and Visualization for Advanced Graphical Environments (SAVAGE)	59
Potential Vulnerabilities of a USMC Tactical Wireless Local Area Network.....	59

TABLE OF CONTENTS

Business Architecture Model for Network Centric Surface Combatant Land Attack Warfare	60
Developing and Implementing an Army-Specific Information Technology Management Curriculum at the Naval Postgraduate School.....	60
Bandwidth Requirements for the Advanced Amphibious Assault Vehicle (AAAV) Command Variant.....	60
A Training Framework for the Department of Defense Public Key Infrastructure	61

LEADERSHIP AND HUMAN RESOURCE DEVELOPMENT

The Performance of Preparatory School Candidate at the United States Naval Academy	63
A Study of Midshipmen's Expectations About Operations Other Than War.....	63

MANAGEMENT

Network Centric Operations and Naval Officers of the Future: A First Order Analysis of Desired Knowledge, Skills, Abilities, and Personality Traits.....	65
A Guide to Selecting Software Metrics for the Acquisition of Weapon Systems	65
Naval Special Warfare Command's Implementation of the CFO Act	66

MECHANICAL ENGINEERING

Modeling the Effect of Cycling of a Localized Heat Source in the Die of a Flip Chip Package with Defects.....	67
Modeling the Biodynamical Response of the Human Head for Injury Analysis.....	67
Semi-Rigid Towing Model for Analysis of Maneuvering in the Horizontal Plane	68
Coupled Lagrangian and Eulerian Approach to Detonation and Fragmentation Problems	68
An Experimental Investigation of the Bow Wave on <i>USS Cole</i> (DDG-67)	68
Validation of Low Observable Stack Eductor Design for Gas Turbine Exhaust Systems	69
A Finite Element Analysis of Thermal Fatigue Stresses in the Solder Joints of a Flip Clip Package.....	69

METEOROLOGY AND PHYSICAL OCEANOGRAPHY

Impact of High Resolution Wind Fields on Coastal Ocean Models	71
Parameterizing Surface Fluxes in the Arctic	71
Mine Drop Experiment (MIDEX).....	72
Classification of Summertime West Coast Fog and Stratus Events and the Development of Fog and Stratus Forecast Techniques	72
A Coastal Air-Ocean Coupled System for the East Asian Marginal Seas	72
A Nonlinear Wave Shoaling Model for Alongshore Varying Bathymetry.....	73
Passive Sonar Geoacoustic Inversion Technique in Shallow Water Using the Inverse Beta Method Against Ships of Opportunity	73

MODELING, VIRTUAL ENVIRONMENTS, AND SIMULATION

Developing Articulated Human Models from Laser Scan Data for Use as Avatars in Real-Time Networked Virtual Environments.....	75
Designing Realistic Human Behavior into Multi-Agent Systems	75
Modeling Conventional Land Combat in a Multi-Agent System Using Generalization of the Different Combat Entities and Combat Operations	76
Emergent Leadership on Collaborative Tasks in Distributed Virtual Environments.....	76
Analysis of Rough Surface Lighting Behaviors with OpenGL	77
The Effects of Natural Locomotion on Maneuvering Task Performance in Virtual and Real Environments	77
Dynamic Scalable Network Area of Interest Management for Virtual Worlds	78

TABLE OF CONTENTS

OPERATIONS RESEARCH

Application of a System-Based Inventory Model for Marine Corps Repairable Parts	79
Analysis of Self-Reported Sleep Patterns in a Sample of U.S. Navy Submariners Using Nonparametric Statistics	79
Optimizing the Number and Employment of Combat Logistics Force Shuttle Ships, With A Case Study of the T-AKE Ship.....	80
An Analysis of Rotary Wing Operations in Urban Combat Using the JCATS Combat Model.....	80
Planning U.S. Pacific Command Wartime Fuel Distribution	81
Modeling and Simulation in Support of Operational Test and Evaluation for the Advanced Amphibious Assault Vehicle (AAAV).....	81
Enhancing Real-Time Tomahawk Predesignation to Diagnose Conflicts, Prescribe Improvements, and Plan Multiple Strikes	82
Evaluation of Combat Service Support Logistics Concepts for Supplying a USMC Regimental Task Force.....	82
Reliability and Life Data Analysis for AN/AAS-44(V) Forward Looking Infrared (FLIR) System to Forecast H-60 Operational Availability	82
Assessing the Utility of an Even-Step ASMD Model by Analysis of Surface Combatant Shared Self-Defense.....	83
Developing a Process for the Derivation of the Probability of Negation for Theater Ballistic Missile Defense	83
Analysis, Design, Implementation and Evaluation of Graphical Design Tool to Develop Discrete Even Simulation Models Using Event Graphs and SIMKIT	84
Reducing Non-Monotonicities in Combat Models.....	84
Scheduling the Recruiting and MOS Training of Enlisted Marines	84
An Improved Heuristic for Tomahawk Land-Attack Predesignation, Enhanced to Accommodate Manual Planning, and Validated with Fleet Exercise Data	84

SOFTWARE ENGINEERING

Application Programmer's Interface (API) for Heterogeneous Language Environment and Upgrading the Legacy Embedded Software	87
A Guide to Selecting Software Metrics for the Acquisition of Weapon Systems	87
Integrated Development Environment (IDE) for the Construction of a Federation Interoperability Object Model (FIOM)	88

SPACE SYSTEMS OPERATIONS

Quantifying the Effect of Cryptology as a Decision Making Tool for the Naval Warfighter.....	89
High Altitude Long Endurance (HALE) Platforms for Tactical Wireless Communications and Sensor Use in Military Operations	89
Project Overview of the Naval Postgraduate School Spacecraft Architecture and Technology Demonstration Experiment.....	90
Modeling the Effects of GPS Jamming on a Theater Campaign.....	90
Space Training and Education for USN Cryptologic Officers – The Road to Space Certification	90
Evaluation of Surveillance Reconnaissance Management Tool and Utility/Functionality to Future Surface Combatants	91
Analysis of a Magnetic Three-Axis Stabilized Attitude Control System for the NPSAT1 Spacecraft.....	91

SYSTEMS ENGINEERING

Bluetooth Technology and Its Implementation in Sensing Devices	93
Potential Operational Applications for High Power Microwaves	93
Development of an RF Weapon Using Open Source Intelligence.....	93
Measurements and Modeling Enhancements for the NPS Minimum Resolvable Temperature Difference Model, VISMODII	94

TABLE OF CONTENTS

Therminator 2: Developing a Real Time Thermodynamic Based Patternless Intrusion Detection System	94
Radar Target Imaging Using Time-Reversed Processing.....	95
The NPS Virtual Thermal Image Processing Model	95
Modeling Media Influences in Information Operations	96
Combined Adaptive Power-Rate Control in CDMA Systems.....	96
Modeling Jamming Effects on Rolling Airframe Missile.....	96
Airborne Exploitation of an IEEE 802.11B Wireless Local Area Network	97

MASTER OF ARTS

INTERNATIONAL SECURITY AND CIVIL-MILITARY RELATIONS

Modernization Options for Light Utility Helicopter Force Structure in the Army National Guard: Factors and Influences Affecting Force Structure Determination	101
------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----

NATIONAL SECURITY AFFAIRS

Assessing Russian Reactions to U.S. Missile Defense	103
The Political and Security Implications of Regionalism in Russia: The Rise of Regional TSARS?.....	103
Interagency Management of Complex Contingency Operations: The Impact of Presidential Decision Directive 56.....	104
The Next Transition in Cuba: An Analysis Based on Institutional Comparisons with Democratic Transitions in Central Europe	104
STUDENT INDEX	105
ADVISOR INDEX	107
