AERONAUTICAL ENGINEERING

System Engineering Aspects of VTOL Rotorcraft: An Extension of the Sikorsky Asset Concept	
Design Trade Study for the United States Coast Guard Deepwater Program	3
UH-60 Black Hawk Disturbance Rejection Study for Hover/Low Speed Handling Qualities	
Criteria and Turbulence Modeling	3
A Computational and Experimental Investigation of Flapping Wing Propulsion	4
Quality Functional Deployment as a Conceptual Aircraft Design Tool	4
Full Nonlinear Simulation of Helicopter Coupled Rotor-Fuselage Motion Using MATLAB [®] and Dynamic Simulation	5

APPLIED PHYSICS

Experimental Studies of Applications of Time-Reversal Acoustics to Non-Coherent Underwater Communications	7
Application of the Robust Symmetrical Number System to High Resolution Direction Finding Interferometry	7

COMPUTER SCIENCE

Server Probing for Server and Agent Based Active Network Management.....	9
Distributed Relational Database System of Occasionally Connected Databases	9
Design, Implementation, and Analysis of the Personnel, Operations, Equipment, and Training (POET) Database and Application Program for the Turkish Navy Frigates	10
COM and XPCOM as a Solution to Bamboo's Versioning Problem	10
Development of an Expert System and Intelligent Software Agent for Aviation Safety Assessment	11
Testing and Development of a Low Cost, Digital Signal Processor Based Torpedo Countermeasure	11
The Role of Expert Systems in Federated Database Systems.....	12
Implementation and Integration of the Object Transaction Service of CORBA to a Java Application Database Program	12
Development of a Software Evolution Process for Military Systems Composed of Integrated Commercial-off-the-Shelf (COTS) Components	13
Fault Tolerant Approach for Deployment of Server Agent-Based Active Network Management (SAAM) Server in Windows NT Environment to Provide Uninterrupted Services to Routers in Case of Server Failure (S)	13
Automated Generation of Wrappers for Interoperability	14
Design and Implementation of a Three-Tiered Web-Based Inventory Ordering and Tracking System Prototype Using CORBA and Java	14
QoS Management with Adaptive Routing for Next Generation Internet	15
Refining a Task-Execution Time Prediction Model for Use in MSHN	16
Toward an Object-Oriented Architecture for the Enhanced Multi-Segment Tracker (EMST)	16
Re-Targeting the Graze Performance Debugging Tool for Java Threads and Analyzing the Re-Targeting to Automatically Parallelized (FORTRAN) Code	17

TABLE OF CONTENTS

Communication Models in Mobile Computing Systems and Mobile Agents	17
An Analyses of Internet/Intranet Information System Architectures with Oracle <i>8i</i> for Turkish Navy	18
A Model for Generation and Processing of Link State Information in SAAM Architecture	18

ELECTRICAL ENGINEERING

Analysis of Mechanisms for TCBE Control of Object Reuse in Clients	19
An Ultra Wideband Antenna With Size Constraints	19
Probability of Symbol Error for Coherent and Non-Coherent Detection of M-ary Frequency-Shift Keyed (MFSK) Signals Affected by Co-Channel Interference and Additive White Gaussian Noise (AWGN) in a Fading Channel	20
Testing and Evaluation of the Small Autonomous Underwater Vehicle Navigation System (SANS)	20
Performance Analysis of the Higher Order Cyclostationary Based Classifier	21
Vulnerabilities in the Open Shortest Path First Routing Protocol	21
Transient Response to Single Event Upset in Silicon-On-Insulator Field Effect Transistors	22
Electric Propulsion for Military Geosynchronous Satellites	22
Simulation of Signaling System No. 7 Message Transfer Part 2	23
Investigation and Application of Recent Web-Based Technologies to the Teaching of Electrical Engineering Courses	23
Testing and Evaluation of Shipboard Wireless Network Components	23
Stepped Frequency Imaging Radar Simulation	24
OPNET Simulation of Signaling System No. 7 (SS7) Network Interfaces	24
Signal Classification Using the Mean Separation Neural Network	25
Detection of Short Transients in Colored Noise by Multiresolution Analysis	25
Missile Terminal Guidance and Control Against Evasive Targets	26
Design of an Ultra-Wideband Low Profile Vertically Polarized UHF Antenna for the US Ground Troop Helmet	26
Analysis for a Trusted Computing Base Extension Prototype Board	27

ENGINEERING ACOUSTICS

Modification and Verification of Design Simulation for Thermoacoustic Research Software	29
Experimental Studies of Applications of Time-Reversal Acoustics to Non-Coherent Underwater Communications	29
Examination of Time-Reversal Acoustic Applications to Shallow Water Active Sonar Systems	30

INFORMATION TECHNOLOGY MANAGEMENT

Implementing an Intranet-Based Personnel Data System in Combat Arm Schools	31
A Decision-Making Model Utilizing Information Technology: Combining the Features of the Internet, Public Participation, and Proven Decision-Making Methods	31
IPSEC-Based Virtual Private Network Vulnerability Assessment	32
Planning, Designing and Implementing a Network for the Naval Reserve	32
Design and Implementation of a Three-Tiered Web-Based Inventory Ordering and Tracking System Prototype Using CORBA and Java	33
Automated Tool for Acquisition Program Management Students (ATAPMS)	34
An Analyses of Internet/Intranet Information System Architectures with Oracle <i>8i</i> for Turkish Navy	34
An Analysis of Decision Making Strategies Used by P-3 Pilots in Hazardous Situations	35

MANAGEMENT

Study of Naval Officers' Attitudes Toward Homosexuals in the Military	39
The Delayed Entry Program and Generation Y	39
Design, Implementation, and Analysis of the Personnel, Operations, Equipment, and Training (POET) Database and Application Program for the Turkish Navy Frigates	40
Cost and Operational Effectiveness Analysis of Alternative Force Structures for Fulfillment of the United States Marine Corps Operational Support Airlift and Search and Rescue Missions.....	40
An Analysis of Return of Investment Options for the USMC Distance Learning Program	41
Accomplishing the Mission of National Missile Defense with Current Technology	41
Logistics Support Requirements: A Case Analysis of the Tactical Quiet Generator	42
A Case History of the United States Army RAH-66 Comanche Helicopter	42
Minimizing Time Awaiting Training for Graduates of the Basic School	43
Are Commercial Ports in the Continental U.S. Capable of Supporting Military Sealift Requirements in Event of a Major Theater War or Other Major Contingency?	43
An Analysis of Operational Availability of Brazilian Navy and Argentine Air Force A-4 Fleets Using Simulation Modeling	44
Analysis of Fuel Tanker Vessels Available in a Dual Multi-Theater War (MTW)	44
A Survey of Public Works Management Systems in California Cities	45
An Analysis of the Effects of Personal Background Characteristics and Market Demographics on Recruiter Productivity	45
An Analysis and Evaluation of Current Challenges in the Aeromedical Evacuation Mission Segment of the Civil Reserve Air Fleet	46
Guidance for Army Contingency Contracting Officers in Preparation for Military Operations Other Than War	46
An Analysis of the Retention Effect of Using Lump Sum Payments for the U.S. Marine Corps Selective Reenlistment Bonus Program	47
An Assessment of the Recruiting Station Location Evaluation System (RSLES)	47
A Historical Perspective of the Global Transportation Network (GTN)	48
AH-64 Apache Cost Reduction	48
A Study of Fleet Surgical Teams Readiness Posture in Amphibious Readiness Groups	49
An Analysis of the Effects of Participation and Perseverance in High School Non-Athletic Extra-Curricular Activities on the Ascent to Higher Leadership Positions at the U.S. Naval Academy	49
The Role of U.S. Maritime Policy in Strategic Sealift	50
Estimating Operating and Support Cost Models for U.S. Air Force Aircraft	50
Business Wargaming: Applications for Marine Corps Manpower Policy Decisions	50

MECHANICAL ENGINEERING

Effect of Bismuth Oxide as a Liquid Phase Sintering Aid on the Densification of Alumina Powder.....	53
A Computer Simulation Approach to the Study of Effects of Deck Surface Compliance on Initial Impact Impulse Forces in Human Gait	53
Micromechanical Study of Interface Stress in a Fiber-Reinforced Composite Under Transverse Loading Using Boundary Element Method	54
Optimal Fault Detection and Resolution During Maneuvering for Autonomous Underwater Vehicles	54
Propagation of Fire Generated Smoke in Shipboard Spaces	55
The Role of Viscous Fingering in the Separation Mechanics of Thin Interfacial Liquid Layers	55

METEOROLOGY AND PHYSICAL OCEANOGRAPHY

Evaluation of Dynamical Track Predictions for Tropical Cyclones in the Atlantic During 1997-98	57

TABLE OF CONTENTS

Improving Maritime Situational Awareness Through the Correlation of ELINT-Derived Ship Tracks and Sonar Time-Bearing Plots (U)	57
Effects of Thermohaline Gradients and the Columbia River Plume on the California Current System	58
Ambient Noise Characteristics During the SHEBA Experiments	58
A Composite Study of the Madden-Julian Oscillation (MJO) and Northeasterly Cold-Surges During the Northern Winter Monsoon	59

MODELING, VIRTUAL ENVIRONMENTS, AND SIMULATION

High Level Architecture Performance Measurement	61
Comparison of Vega™ and Java3D™ in a Virtual Environment Enclosure	61
Object Signing in Bamboo	62

OPERATIONS RESEARCH

The <i>K</i> -Group Maximum-Flow Network-Interdiction Problem	63
Screen Dispositions of Naval Task Forces Against Anti-Ship Missiles	63
Agent Based Simulation as an Exploratory Tool in the Study of the Human Dimension Combat	64
Calculation of Barrier Search Probability of Detection for Arbitrary Search Tracks	64
A Comparison of Output from the Los Alamos National Laboratory (LANL) Parallel Ocean Program (POP) Model with Surface Velocity Data from Drifting Buoys in the North Atlantic Ocean	65
Fitting Lanchester and Other Equations to the Battle of Kursk Data	65

PHYSICAL OCEANOGRAPHY

Drifter Observations of the Mediterranean Sea Surface Circulation	67
